

GardX Vehicle Protection System  
Protect your paintwork and interior for life

**Winner**

Paint Protection Provider of the Year  
2015 - 2016 - 2017 - 2018 - 2019  
GardX Vehicle Protection System

## THE PROBLEM

In today's harsh environment your vehicle's exterior paintwork is exposed to a number of pollutants, whilst accidental spillages can spoil your car's interior. From tree sap to UV rays, detergent to acid rain, regular surface erosion means that your vehicle needs extra protection if you want it to retain that showroom-like appearance.

And it's not just your paintwork that's under threat. Dirt transferred by you, your family and pets into your car, means that your interior is at risk from staining too.

## THE SOLUTION

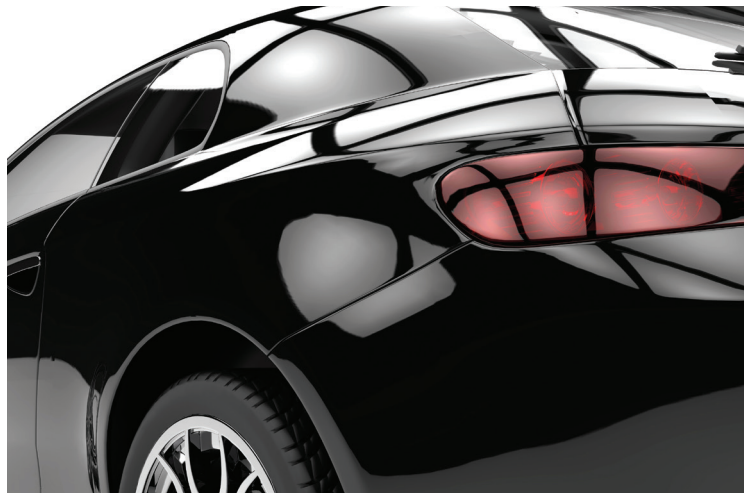

### **It's not a wax polish; it's a protective barrier!**

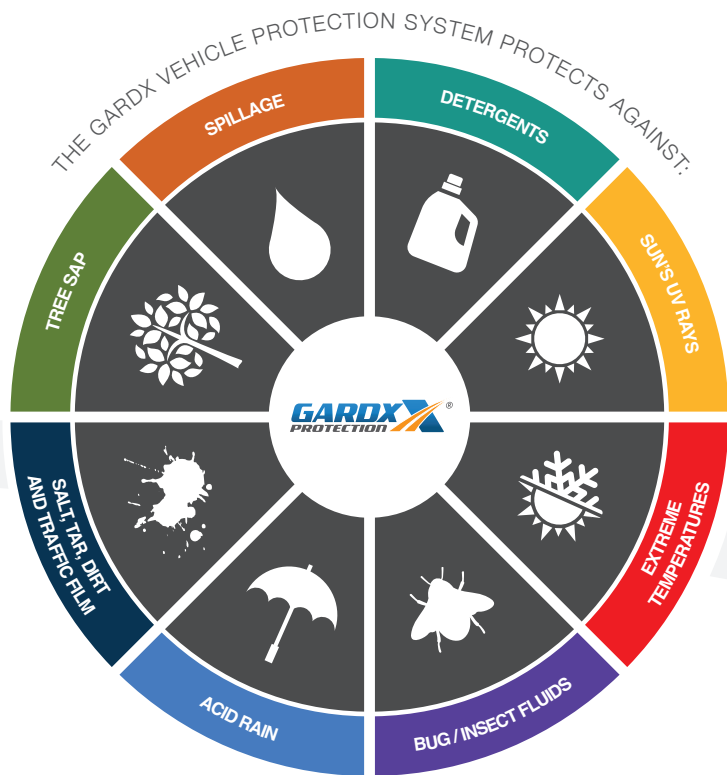

Modern wax polishes simply do not last. Every time you wash your car with strong detergent cleaners, you're also washing away a layer of protection.

The GardX Vehicle Protection System with powerful Nanotechnology forms a highly resilient protective coating over your paintwork that shields it from environmental pollutants and provides a spectacular high gloss showroom finish that retains its appearance wash-after-wash. You may never need to polish your vehicle again!

The GardX System also guards your vehicle's interior ensuring that your seat fabrics and carpets will resist staining and that leather is protected and will remain soft and supple, like new for years.

The GardX Vehicle Protection System provides valuable protection for your vehicle, enhances its future re-sale value and comes with the assurance of a LIFETIME GUARANTEE.

## THE BENEFITS

- **Maintains** a high-gloss showroom finish, wash after wash
- **Guards** your paintwork and interior
- **Protects** the future resale value of your vehicle
- **Enhances** safety and visibility in wet driving conditions
- Has **achieved** British Standard EN ISO 2812-5:2007
- **Provides** a transferable Lifetime Guarantee for paint, leather and fabrics\*

\* There is an administration fee to pay to transfer the Lifetime Guarantee

## EXTERIOR PROTECTION

If you look at the paintwork of a new or used vehicle under a microscope you will see lots of imperfections, known as 'castellations'. As your vehicle's paint ages these castellations attract all manner of environmental pollutants that degrade the paint, causing oxidation and fading. The GardX paint protection system, permanently etches an invisible layer of powerful and durable sealant into the surface of the paintwork, filling in the castellations and creating a super-smooth, high-gloss, ultra-protective finish.

The GardX Vehicle Protection System is for professional application only and is applied in two stages as follows:

1

### STAGE 1:

A preseal formulation that penetrates into the molecules of the paintwork preparing it for sealing with Stage 2.

2

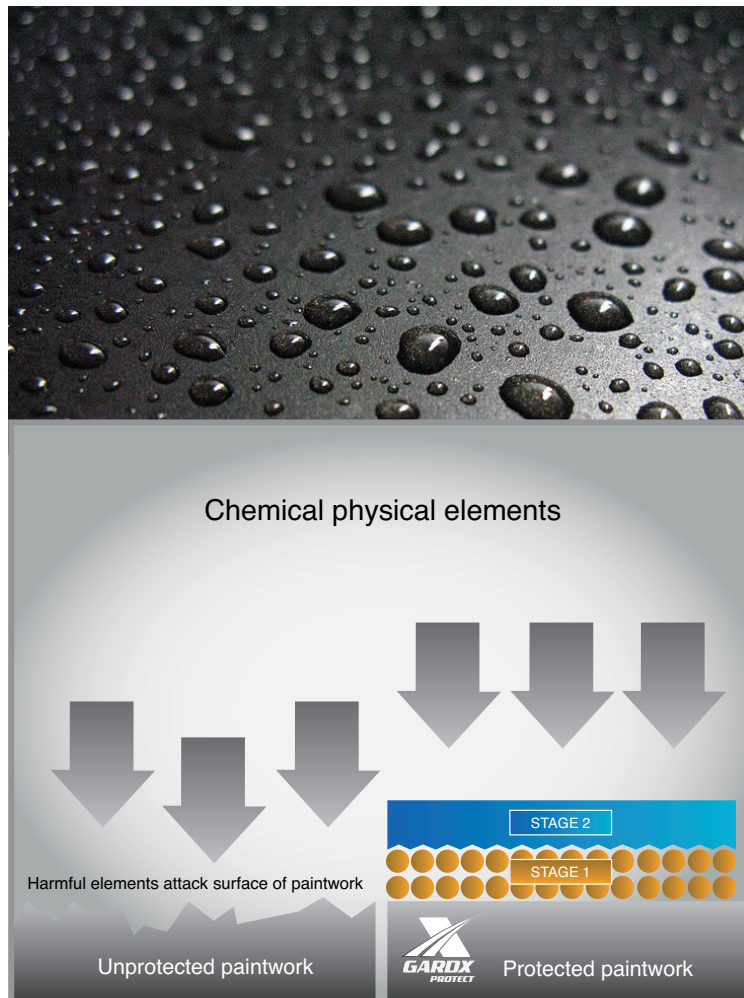

### STAGE 2:

Permanently bonds to Stage 1, creating a high gloss protective coating over the paintwork, like a second skin that resists attack and contamination.

### CONSERVER:

Conserver assists in maintaining the GardX protection. It is advisable that it is applied monthly as a wash additive.

*Manufactured under a quality management system accredited to ISO9001*

## INTERIOR PROTECTION

**Stain Guard** - Stain Guard is a hi-tech formulation that coats each individual fabric fibre with an invisible barrier that protects against liquid spills, dirt, grease, oil and grime. Liquid spillage either passes straight through the weave without staining or simply beads-up and can be removed by wiping off with a clean cloth or vacuuming away.

**Leather Guard** - If you have a leather interior, GardX's exclusive Leather Guard treatment will help protect the hide against stains, dirt and liquid spills; and at the same time moisturises the leather to retain that supple like new look.

## ADDITIONAL FEATURES

### And the benefits don't stop there.

**Glass Guard** - Safety Feature. Creates a far safer driving environment by coating the windscreen with a formulation that repels rain and causes it to bead and aerodynamically run-off. Your area of vision dramatically improves by keeping glass free of rain, snow, frost, salt, dirt, bugs and grit. Glass Guard is suitable for all glass surfaces.

**Tyre Guard** - Safety Feature. If one of your vehicle tyres puncture, GardX has the solution. Just connect Tyre Guard to the tyre's valve, depress the actuator and Tyre Guard will re-inflate the tyre and repair the puncture. A quick, safe and simple temporary repair.

**Bird Dropping Remover** - As well as being unsightly and unhygienic, bird droppings, due to their corrosive nature can permanently damage your vehicle's paintwork unless removed quickly. The GardX paint protection system will delay the corrosive effect of bird droppings but paintwork damage will occur if the droppings are not removed in a timely manner. GardX Bird Dropping Remover will soften and neutralise droppings, allowing them to be removed quickly and easily. Bird Dropping Remover will also restore protection to the affected area.

*The GardX Vehicle Protection System has achieved British Standard EN ISO 2812-5:2007.*

*Contents of Customer Take Home Packs may vary.*

***The GardX Vehicle Protection System can only be purchased from and applied by an authorised Dealer.***
