

BEV BATTERY HEALTH CHECK & WARRANTY

See battery State of Health like never before.

DESIGNED TO BUILD CONFIDENCE.

GardX EVerity comprises of an innovative battery health test, battery health certificate, and supporting suite of warranty products, designed to build confidence when purchasing and owning a Battery Electric Vehicle.

You may be concerned about the battery range and battery or powertrain component replacements during your ownership and the high costs that may come with it.

GardX EVerity offers a real solution, born from real innovation, to solve the real questions you may have.

Battery health naturally declines over time, and we help to alleviate any financial worries by offering the EVerity Warranty.

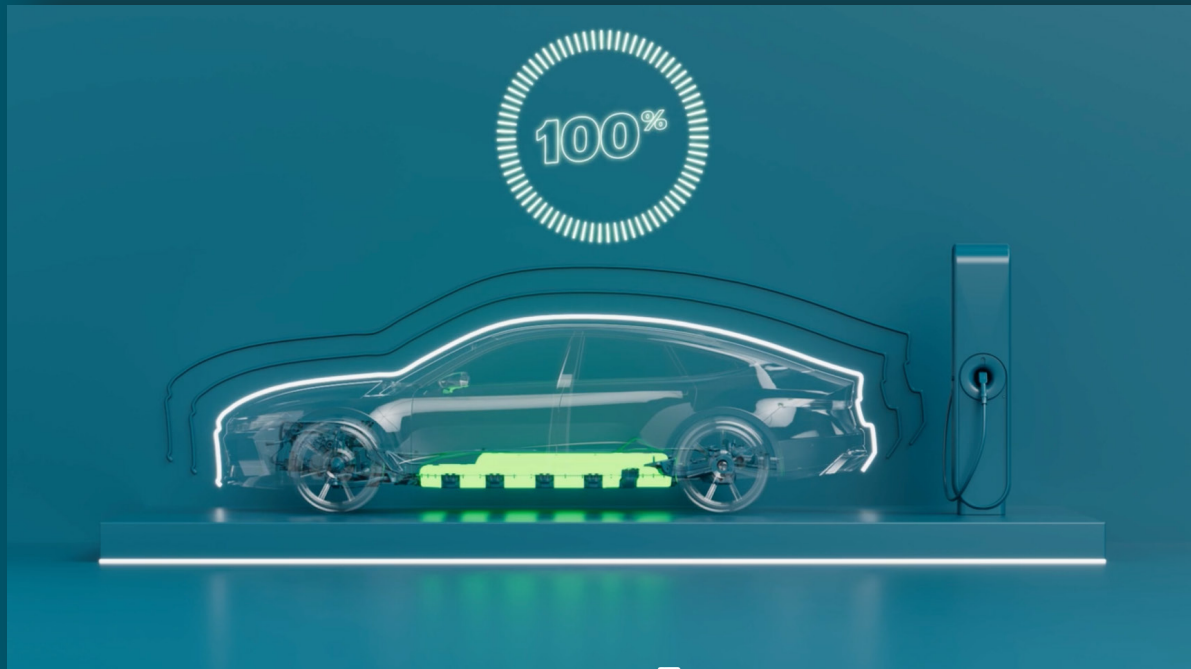

Our warranties offer repairs or replacement batteries when they decline and EV related powertrain components if they fail, dependent on the warranty plan that you purchase*.

Providing cover that takes your vehicle back to 100% State of Health, up to the invoice price of the vehicle.

* The level of Warranty cover available is determined by the mandatory Battery Health test results.

PROTECT YOUR INVESTMENT.

We help extend the life of your battery electric vehicle and protect your investment whilst reducing any future financial loss.

PEACE OF MIND WARRANTIES.

To address concerns about battery degradation or powertrain component failure, GardX EVerity offers warranties that cover the cost of repairs or replacement of batteries that fall below a certain capacity threshold, and faulty powertrain components.

We have a range of cover available to suit different driving and lifestyle requirements, helping to protect you, your investment, and the environment.

ENHANCED STATE OF HEALTH WARRANTY:

Covering the cost of replacing or repairing your cars traction battery back to 100% State of Health up to the invoice price if taken out at the point of purchasing your car, or up to the market value of your car if taken up independently.
